Hi William,

Your meeting with the hiring team is scheduled for tomorrow **February 6th , 2025. from 12:30- 2:00 pm EST.**

Please accept the meeting invite at your earliest convenience

Format
- Interview is scheduled for 90mins , it can go beyond (15mins)
- Interview will be Technical – including Questions and Code review
- Questions and Answer session (please be prepared to ask questions about the team/program etc. to better understand the role/scope

Program details/Manager Notes :
- This program requires help developing and testing Low Level Requirements per DO178c. Candidates will perform reviews of Source Code using the Software Coding Standard and LLRs as a reference.
- May eventually lead to reviews of HLRs and LLRs based on task-specific training. The code is written to support the Linux operating system.
- The candidates will need to be familiar with DOORS, RTC and JIRA.
- Experience and superior understanding of C programming language
- Proficiency in using GIT and Microsoft Visual Studio 2013
- Willingness to learn Graphics Programming (CoreAVI will train resources on the job)
- Resources will be creating High Level Requirements (HLR) Test Cases
- Input: HLRs
- Process: Write a test procedure document in plain English that describes the test and expected outcomes. Write test code/script as the actual test code that will be executed to meet the test procedure. Ensure tests run successfully. There is some use of QT Creator & Python scripts, but Unit test procedures are written in Word, and the test code is written in Vulkan commands in C in Microsoft Visual Studio.
- Output: Test Case Procedure documents, Test Code

Important information :
- Kindly ensure that your *microphone and camera* are in working order for the online video interview
- Please be prepare for a code review/challenge -C Language -Idea is to understand your thought process and ability to work with instructions and other team members
- Please ensure that you have disable any AI tools (including transcription, note-taking, or other AI-assisted tools) before joining the interviews.

Please notify once you finish your meeting so we can recap for me to get further feedback for you

Good Luck
